Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: http://www.uspto.gov/main/howtofees.htm.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 24-28,40-46 is the inclusion of the limitations of an ink jet recording apparatus that includes a flushing signal generating unit operable to generate a flushing signal that causes a recording head to jet ink particles only main ink particles through a nozzle so as to not form a mist. It is this limitation found in the claim, as it is claimed in the combination of, which has not been found, taught or suggested by the prior art of record that makes these claims allowable over the prior art.

The primary reason for the allowance of claims 29-33, 47-48 is the inclusion of the limitations of an ink jet recording apparatus that includes a flushing signal generating unit operable to generate a flushing signal that causes a recording head to jet only ink particles with a momentum greater than a predetermined value through the nozzle so as to not form a mist. It is this limitation found in the claim, as it is claimed in the combination of, which has not been found, taught or suggested by the prior art of record that makes these claims allowable over the prior art.

The primary reason for the allowance of claims 34-39, 49-50 is the inclusion of the limitations of an ink jet recording apparatus that includes a flushing signal generating unit operable to generate a flushing signal that causes a recording head to intermittently jet sets of ink particles comprising a main ink jet particle and minute ink jet particles after the main ink particle through the nozzle, wherein the minute ink jet particles of a previous set combine with the main ink jet particle of a following set in a range of a predetermined distance from the nozzle so that an amount of the minute ink

jet particles scattered in mist can be reduced. It is these limitations found in the claim, as it is claimed in the combination of, which has not been found, taught or suggested by the prior art of record that makes these claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
